

**This workshop will seek to identify research gaps and future research priorities.**

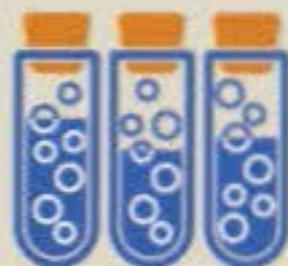

ME/CFS is a **complex, multifaceted disorder** characterized by **extreme fatigue** and other symptoms that **do not improve with rest.**

**1 million**  
people are affected  
by ME/CFS

**Women** are affected by ME/CFS more often than **men.**

There are **no lab tests** for diagnosing ME/CFS.

ME/CFS can make **daily activities** like cooking, brushing teeth, and caring for children **more difficult.**
